

## College- and Career-Ready Student Outcomes Data Explorer: State Data Sources

To populate the College- and Career-Ready Student Outcomes Data Explorer, Achieve collected publicly available data from states' SY 2017-18 report cards, high school feedback reports, and accountability reports throughout spring and summer 2019. Achieve reviewed postsecondary and P–20 reports and reports commissioned by state legislatures and other entities in the state for relevant data. Many of the data points included in the Data Explorer require that a user dig a number of levels into a state's website, download a research data file, or may require selection of a sample school report card where state data are provided for context. The below links often reflect the best “starting point” to procure the data. Please email Marie O’Hara at [mohara@achieve.org](mailto:mohara@achieve.org) for specific questions related to where specific data can be located.
